END-METADATA

1. Purpose

This policy sets the shift pattern, the shift allowances and the overtime rules for NileGate terminal staff, so that pay for unsocial hours is fair and predictable.

2. Scope

It applies to all terminal operations staff on shift rosters. Management grades are excluded and follow their own contracts.

3. Shift patterns

Terminals run three 8-hour shifts: 07:00 to 15:00, 15:00 to 23:00 and 23:00 to 07:00. Rosters rotate every 2 weeks, and every employee has at least 11 hours of rest between two shifts.

4. Shift allowance

The night shift earns an allowance of 25 percent of the basic hourly rate and the evening shift 10 percent. Work on Fridays and public holidays earns 50 percent.

5. Overtime

5.1 Approval

Overtime must be approved in writing by the shift supervisor before it is worked. It is limited to 2 hours per shift and 30 hours per calendar month.

5.2 Compensation

Approved overtime is paid at 1.5 times the basic hourly rate on working days and 2 times on public holidays. The employee may choose time off in lieu instead, to be taken within 60 days.

6. Records and payroll

Hours are recorded in the time and attendance system and sent to payroll by the 25th of each

month. Disputes are raised with HR within 30 days of the payslip.
